A UNIQUE RECORD

Home testimony for Doan's Kidney Pills, published in every locality, is of itself convincing evidence of merit. Confirmed testimony forms still stronger evidence. Years ago, a citizen of Norway gratefully acknowledged the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the proof more convincing. Cases of this kind are plentiful in the work of Doan's Kidney Pills—the record is unique.

S. C. Foster, barber, Main street, Norway says: "I have used Doan's Kidney Pills and I am only too glad to say to others I think they are the best of kidney medicines. Several years ago I had kidney trouble. I got Doan's Kidney Pills at F. P. Stone's Drug Store and I was soon feeling all right again. I remained so for a long time, but later caught cold and my kidneys gave me trouble. I again took Doan's and they gave me relief." (Statement given July 24, 1908).

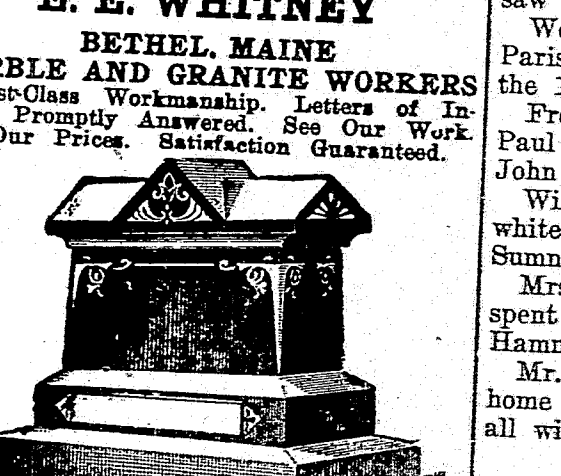

On June 6, 1916, Mr. Foster added: "I still think as well of Doan's Kidney Pills today as when I first endorsed them. I use them occasionally, as I feel in need of them and I am always promptly benefited."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Foster had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

When your soldier comes home—there should be a new portrait to record the event.

Make the appointment for him.

If you want clean Kerosene Oil, buy it of Wm. C. Leavitt Co.

Why is Wm. C. Leavitt Co.'s Kerosene clean? Because they sell from a large tank, dipping from top instead of pumping from bottom where all dirt, water and bad stuff settles. Try our Oil and see if this is not so.

AGRICULTURAL NOTES

In an article in the March Review of
Reviews Oxford County is again in the
foreground in an article entitled "Dig-
ging Over the New England Farm." The
illustrations on orcharding were taken by
Prof. George A. Yeaton of Norway, and
his work, with that of others connected in
the extension service are highly com-
mended in their assistance by the fam-
ily making their farms more profitable.
Among the group of pictures are those
by Prof. Yeaton at the Charles Gammon
& Son, Frank Gammon's sap orchard last
year, where they made a large quantity
of syrup during the "Tap A Maple Tree
Drive," having one of the best equipped
sap houses in the country.
Prof. George A. Yeaton has been look-
ing up the sheep folds that were taken
over a few weeks ago, and finds an im-
proved condition where treatment was
necessary.
An interest is being manifested among
Norway farmers in farm accounting. The
University of Maine is furnishing ac-
counts, and Prof. George A. Yeaton is as-
sisting in this extension work, visiting
the farmers and getting them started.

JOHN ON GUARD
IN GERMANY

But He Must Be Cared For and
Brought Home and the Vic-
tory Loan Billions Will Go to
Pay That Bill.

Most of us in the recent weeks have
heard some mother or father speak of
their absent son, somewhere with the
American army of occupation along
the Rhine.
"John's in Germany," they say,
proudly.

John is standing guard out there
along the front line of freedom, no
longer menaced by gas bombs and
shrapnel, high explosive shells or ma-
chine guns, nor any of the machinery
of war.
He is enjoying, as much as one in
service may, the fruits of victory. He
is sleeping in the open instead of in
a dug-out. He is having three meals
a day instead of a snack between bom-
bardments. He's as comfortable as it
is possible for him to be and meet the
demands of his duty.

Uncle Sam must pay his passage
home, must see that he is safely cared
for until returned.
John must be cared for in Germany;
he must be taken care of when he
gets back.

John and some 2,500,000 of his com-
rades won peace for us. Protected
our liberties, kept us from enslave-
ment and the paying of tribute, main-
tained the national honor.

And we must not forget the debt we
owe them now. It is a debt of honor—
such as the United States never yet
failed to meet.

Uncle Sam needs many billions of
dollars to finish his war job and to re-
juvenate the halting American indus-
tries. "America has a greater com-
mercial opportunity now than ever in
her history. But Uncle Sam must pave
the way; must make prompt payment
on delayed accounts; must finish his
shipping plans.

But he cannot do this without help
of all the people.
New Year's Eve, the cost of the War
stood at Twenty-two Billion dollars.
Practically all that money had been
raised by taxation. Since the middle
of November the Government has been
"borrowing" from the banks about
\$300,000,000 a week. This will foot up
over five billions by April 30.

Under the Constitution, in plain hon-
esty, the Government must pay for
every article it has bought. It must
pay for the use of the equipment and
capital owned by private citizens, in
the service of the nation at war.

THE VICTORY LIBERTY LOAN
will be used to raise money to pay just
bills.

THE AMERICAN SOLDIER
WHO DID NOT QUIT
Carter Glass, secretary of the
Treasury, copied the following note,
among others, from the note book of
a Red Cross nurse when he was in
France:

"One boy I shall always remember.
His right shoulder was practically
all shot away and he had a big wound
in his back and one in his left eye.
But he sat straight up and wouldn't let
anybody help him. He didn't say a
word while they pulled off the tight
gunning gauze from the red, raw, wet
flesh that quivered in spite of him.
When the first wound was finished,
he said:

"Red, raw, wet flesh"—American
flesh. It was 'not yellow. Think of
that when you are asked to buy of the
Victory Liberty Loan, ye who think ye
have done enough.

VICTORY LOAN WILL HELP
ALONG BUILDING BOOM
Statistics compiled by Bradstreet's
indicate that a building boom is under-
way. Official reports from 95 cities
show a gain of 24.2 per cent for Feb-
ruary this year, over that month last
year.

Building is one of the barometers of
prosperity. The boom—the real big
boom which is bound to come this
summer—is being held in check by
the prospect of the Victory Loan.
With the Victory Loan out of the way
—and popularly subscribed—the banks
will be in a position to open up on real
estate loans and building will flourish.

TANK CORPS MOBILIZING
FOR NEW ENGLAND
A tank corps of 12 units will op-
erate in New England in the Victory
Liberty Loan.
They will come to Boston very early
in April and will start on their tour of
the six states just before the opening
of the Loan, April 21. Eastern Mon-
day, one of these tanks will be assigned to
Rhode Island; three to Massachusetts
and two each to New Hampshire, Ver-
mont, Maine and Connecticut.

Each tank will be accompanied by
a driver and a mechanic and each
will be accompanied by Liberty Loan
speakers. The tank has an average
speed of five miles an hour and a trav-
eling radius of forty miles from one
charge of gasoline.

NORTH WATERFORD

Rice Neighborhood

K. Hamlin, South Waterford, during her
vacation.

land.

ALBANY LINE

Burnham Rice and Linwood Flint
played for the dance at East Stoneham
Wednesday night. A full house and a
good time.
The drama at T. O. O. F. Hall Sat-
urday night by the North Waterford Gram-
mar school was a great success. As they
played to standing room only, and the
applause spoke well for both teachers and
players. Over thirty couples joined in the
dance after the entertainment, \$32.00
was taken by the Drama and dance. Burn-
ham Rice and Linwood Flint furnished
music.

There will be an entertainment and
dance at Grange Hall, North Waterford,
Saturday evening, March 29th.
Otis Cobb is on his way home, we are
glad to hear.

Uncle Sam bought 15 head of cattle
of Ernest Brown, Monday. He bought
and sold a large pair of oxen last week
and sold two cows to George Kimball and
B. Maxey of North Bridgton. Wallace
Cummings, Elmer Henley and Ernest
Brown also sold them one.

E. K. Shedd, S. M. Lebrooke and Wal-
ter E. Hamilton sold some beef cows to
J. O. Hamilton of Lovell, who was through
here last week looking for stock. He
stopped over night with William Fisk.
Mr. Hamilton married Blanch Charles,
daughter of the late Howard and Linnie
Charles of Lovell. They live on the old
home place. Mr. Hamilton bids fair to
be as proficient a cattle buyer as Mr.
Charles, who was a great stock broker,
known and respected throughout the
country.

Merritt Sawin has been ill so a
physician was called. Her daughter, Mrs.
Merton Kimball, is with her at present.
Mrs. Fred Hazeltine was called to Au-
burn last week by the severe illness of
her daughter, Mrs. Don Smith.

Josephine Lord is taking lessons on
the violin of Linwood Flint. She has a
musical talent.
Carroll Lewis bought a good shot of
Edgar Sheld last week.
Roy Lord bought a fat hog of Charles
Marston, Saturday.

Stock of all kinds seems to be moving
briskly at present.
Ernest Brown, son of Mr. and Mrs.
Harry Brown, who was ill during the past
week, is more comfortable.

Marion Allen came home from Old Or-
chard last week. She is to go to work for
Eva Ordway of Paris this week.
Mrs. Jessie Littlefield has been ill with
a cold.

Freeman Stanley is able to be out
again on business.
Newell Andrews bought a horse of
Walter Lord last week.
Phil Bothers are planning on making
maple syrup. The weather seems more
favorable now than it was this
spring. Linwood is shipping a large
number of porcupines this spring.

Mrs. E. K. Shedd, Walter Lord and
wife visited at Ernest Brown's, Tues-
day.
Schools in North Waterford closed Fri-
day.

The price of beans has fallen off half
in price since last spring. They are at
present a drug in the market here. Most
every farmer raised a good crop.

March for some days past has reminded
one more of the lion than the lamb, but
all point to April with its showers and
May with its flowers.

Attention--Farmers

This is a splendid chance for farmers to take stock on their
harvesting and haying machines, or any others they will use dur-
ing the year. Look each one over and note carefully any part
that may need replacement. A little later you will be pressed for
time and then a thorough examination will be almost impossible.

The repair problem can be much simplified by this method. While
we have always tried to meet promptly every call of this kind, real-
izing how valuable your time is, having this advance information
will aid us very much in making our service complete.

A list of your possible requirements will enable us to check
up our stock of repairs to see that not a single part you might
need is missing.

We want to cut to a minimum the time between the
need of a repair part and its supply. This you can help
us do by giving us this list before or during Repair and
Inspection Week, March 3-8.

Woodstock Defeated West Paris

In the last game of the season here,
Woodstock High defeated West Paris
High 25 to 23 Saturday night. The game
was the best seen here this year, both
teams playing fast, clean ball. Wood-
stock held the lead from the start and
had a lead of 6 points at the end of the
first period. However, Paris came back
strong in the second half but could not
overcome the lead. R. Hathaway at cen-
ter proved to be a tower of strength for
the home team as he broke up play after
play of the visitors before they became
dangerous. His good work was closely
seconded by that of L. Hathaway and
Lapham while Packard was the star for
West Paris. Of the fourteen games
played this year, Woodstock has won
eight. The score:

school the same evening by the score of 14 to 4.

The Development of Woodstock

Probably within the corporate limits
of this town of ours there are few, if any
citizens, who would not be glad to see
old Woodstock grow and prosper and by
far the greater number would be glad to
do anything they could within reason to
help the town become bigger, busier and
better. Probably at no time in the his-
tory of the town, unless it was in the very
early days, are the citizens better ac-
quainted with each other than they are
today, the telephone, R. F. D., and au-
tomobile having brought us all nearer to-
gether.

That the citizens of Woodstock can ac-
complish almost anything they under-
take, when they want it so much, has
been proven time and again and perhaps no
thing ever proved this better than the
Centennial Celebration of 1915 when the
citizens carried to completion a celebra-
tion which we can all look back to with
pride.

Woodstock is one of the best towns in
Maine and we want to make it the very
best, or at least to come just as near the
goal as it is possible for the united efforts
of our citizens to make it and no one
knows or begins to dream the possibilities
stored up in this old town of ours, if each
citizen will do his best in his own work
uniting his efforts with his fellow citi-
zens for the town's welfare.

One of the great assets of our town is
the beauty of its hills and valleys, our
blue Lake Christopher, surrounded by
mountains and hills and the many beau-
tiful drives into all sections of our com-
munity and for many years our growing
popularity as a summer resort has added
greatly to our valuation. It has helped
our merchants and helped make a better
market for our farmers. Our location, al-
most the geographical center of Oxford
County, on the Grand Trunk Railway and
State trunk line highway, also the natural
outlet for Milton and portion of Bethel,
Rumford and Greenwood, give us advan-
tages as a trade center and shipping
point.

While not a manufacturing town, we
have some good industries and no doubt
there are greater opportunities along this
line than many of us realize.

Our farms while perhaps more rocky
than many in the surrounding towns, are
capable of producing most excellent crops,
the south part of our town having some
of the best fruit farms in the county, and
we have a few model farm houses which
will compare favorably with any to be
found in our state.

Now if Woodstock is to grow as it
should, one thing is necessary, the business
of the town must be increased. Our mer-
chants must strive to build up their trade
by fair dealing, up to date business meth-
ods, and cooperation with each other. Our
farmers must work together through the
Grange and other organizations and by
hard work and efficient business man-
agement on their own farms, strive to make
Woodstock farms more profitable. All of
our citizens, whether merchants, farmers,
manufacturers, employees, or whatever
line of work we are engaged in, must
strive to do our very best to build up the
business we are in; not for ourselves
alone, but for the town in which we live.

If we all do our best as individuals, we
can do much for our town. If in addition
to this we could unite our efforts through
a Board of Trade, Chamber of Commerce,
or some similar organization to advance
the common interests of our community,
there is no end or limit to what can be
accomplished.

Woodstock is our home town, its fu-
ture is in the hands of our citizens and
will be just what we make it and a great
many of us believe that it is possible
to make Woodstock a town that our whole
state can well be proud of, a town with
the best of schools, excellent highways
and streets, electric lights, water system,
and all the improvements which an up to
date town must have and a town so free
from gossip, slander and so full of the
spirit of love and helpfulness among its
citizens that the stranger who comes
among us will want to linger, our young
people will want to stay here, if they can,
a town that is worthy the best that its
citizens can give it. Let us make it so!
It is up to us!
